

COMPLETE CARE

Protect your vehicle like never before

WaxGuard not only provides you with the ultimate 'Paint & Interior Protection' but also features a range of exciting products to protect and preserve your valuable car in 'as-new' condition. For Complete Care for your car choose from the following:

Paint Protection

- ▶ Superior technology Teflon-based formula sealant forms a protective barrier over the paint surface
- ▶ The ultimate protection from ultra violet rays
- ▶ Stops paintwork fading and maintains a glass-like finish
- ▶ Eliminates the need to wax or polish
- ▶ Just a regular wash with Wax Guard Shampoo and chamois off
- ▶ Allows easier paint matching for touch ups
- ▶ Rejuvenation required after four years

Nature Guard

- ▶ The ultimate high gloss environmental protection barrier
- ▶ Complete protection from, acid rain, alkali pollution, bird droppings, tree sap, insect etching, hard water deposits, road grime, pollution fallout
- ▶ Formulated from patented biodegradable components (not soluble in water) - Continuously neutralises, cleanses and repels air and waterborne contaminants, which can stain and etch into the paint surface
- ▶ Applied over the top of WaxGuard Paint Protection and maintained by simply washing with Nature Guard Wash Renewer and chamoised off
- ▶ Rejuvenation required after 4 years

Fabric Protection

- ▶ Protects against staining from dirt, food and beverage spills
- ▶ Extends fabric life by reducing friction wear
- ▶ Original appearance is retained
- ▶ Non-toxic and odourless once cured

Vinyl & Leather Protection

- ▶ Penetrates and seals porous surfaces, protecting dashboards, consoles and other trim
- ▶ Powerful ultra-violet inhibitors protect and shield against UV rays and temperature fluctuations that cause surface cracking
- ▶ Retains the true colour and original texture of your vehicles' interior
- ▶ Non-toxic and odourless once cured
- ▶ No re-application required

COMPLETE CARE

COMPLETE CARE

COMPLETE CARE

Rust & Underbody Protection

- ▶ Wax-based atomised process sprayed under pressure penetrating into body sections, seams and cavities providing a protective barrier sealing out air, moisture, salt and dust
- ▶ Requires no drilling or trim removal
- ▶ Once only application
- ▶ Neutralises any existing rust preventing its' spread
- ▶ Proven product which is clean and odourless
- ▶ Eliminates costly rust repairs

The benefits of Underbody Protection:

- ▶ Insulates against extreme temperature conditions
- ▶ Self healing against stone impacts and scratches
- ▶ Completes total rustproofing process
- ▶ Prevents a high percentage of road noise
- ▶ Seals out moisture, water and dust
- ▶ Conforms to Australian Standards: When Underbody Protection is combined with Rust Protection the application complies with the rust proofing Australian Standards AS2662 Part 2. Rust and Underbody products conform to Australian Standard AS2662 Part 1

Electronic Rust Protection

- ▶ Electronic corrosion module generates high speed pulsed current action to inhibit rust
- ▶ Complements underbody rust applications by protecting entire vehicle, including above the window sills
- ▶ No toxic chemicals used
- ▶ Corrosion process reduced by 80% confirmed by laboratory tests
- ▶ Voltage regulating circuit shut-off prevents battery drainage

Entire vehicle rust protection

Window Tint

- ▶ The ultimate metallic film, reflects up to 99% of ultra violet rays, and up to 60% of solar energy (heat)
- ▶ No optical clarity loss, colour change or bubbling
- ▶ Reduces glare up to 60% which reduces eyestrain
- ▶ Increased safety in an accident - glass fragment are held together by the film
- ▶ Provides increased privacy and greater security of personal items left in the vehicle
- ▶ Improves air conditioning efficiency and reduces fuel consumption
